

# GETTING THE MOST FROM BRC MEMBERSHIP

INSIGHT, EVENTS AND INFLUENCE,  
EXCLUSIVE TO BRC RETAIL MEMBERS

---

---

# THE BRC'S PURPOSE IS TO MAKE A POSITIVE DIFFERENCE TO THE RETAIL INDUSTRY AND THE CUSTOMERS IT SERVES, TODAY AND IN THE FUTURE.

---

Retail is an exciting, dynamic and diverse industry. It is a driving force in our economy, a hotbed of innovation and the UK's largest private sector employer. Retailers touch the lives of millions of people every day, supporting the vibrancy of the communities they operate in.

The industry today is going through a period of profound change. Technology is transforming how people shop; costs are increasing; and growth in consumer spending is slow.

Retailing will continue to evolve and advance. Online retail will continue to grow as retailers invest in new emerging technologies; there will be fewer stores and those stores remaining will offer new experiences; there will be fewer, but better jobs and a career in retail in the future will be very different to today.

We are committed to ensuring the industry thrives through this period of transformation.

We tell the story of retail, work with our members to drive positive change and use our expertise and influence to create an economic and policy environment that enables retail businesses to thrive and consumers to benefit.

We do this in a way that delivers value back to our members, justifying their investment in the BRC. This membership comprises over 5,000 businesses delivering £180bn of retail sales and employing over one and half million employees.

**It's great to have you on board.**

**FOCUSING ON THE ISSUES THAT MATTER TO YOU, OUR ROLE-BASED COMMUNITIES ARE ONE OF THE PRIMARY WAYS BRC MEMBERS GET VALUE FROM THEIR MEMBERSHIP:**

Reduce cost pressures by influencing our messaging and informing governmental decision-making to ensure productive and prevent cost-inducing regulation

Harness the expertise of our team to support you operationally with interpretations of legislative and technical regulations

Protect your brand through collective responses to intrusive media and proactive development of standards and guidelines to prevent crises

Benchmark your performance through our data and insight, informing your planning and decision-making

Network with your peers and collaborate on areas of mutual interest

“The BRC plays an important role in bringing together the interests of pure e-commerce retailers, such as Shop Direct, with those of bricks & mortar and hybrid retailers to lobby the Government in the many areas where there is a common interest. Without the BRC fulfilling this role, there is a danger that these different retail sectors would diverge and our separate voices would have reduced influence.”

### Online consumer behaviour

*How is digital changing the customer journey and how should our business adapt?*

### Economics

*What are the macro factors influencing shoppers and the broader retail sector, and how can we mitigate or capitalise?*

### Footfall and vacancies

*Region by region, where are shoppers heading, what formats do they prefer, and how is the landscape changing for our stores?*

### Sales

*How is our business performing versus our peers, category-by-category, channel-by-channel?*

### Prices

*What's up and what's down, based on 500 goods commonly found in UK shops?*

### Employment

*What are the trends in the retail labour market and what does that mean for our HR strategy?*
