

# Workforce management for future-facing retailers

Running your retail business has never been easier. With seamless scheduling, staffing, time reporting, communication and task management all in one place you'll have a happier workforce and a happier business.

**Quinyx is the market leading cloud-based, mobile first workforce management solution, helping retailers around the world save money and time whilst increasing productivity and profitability.**

## Scheduling

Quickly create fair, reliable and intelligent schedules optimised to match your business and store practices. With smart scheduling you'll have efficient and productive employees, happier customers, and ultimately a happier retail business.

## Advanced Forecasting

Create optimal schedules based on your forecasts and historical data.

## Communication & Engagement

Industry-leading tools to help drive engagement among your employees, from real-time communications to company-wide surveys and recognition.

## Time & Attendance

Experience fully-integrated time reporting and absence management, allowing you to plan better. Your employees can even punch in and out directly using their mobile phone.

## Reports & Insights

Follow up on your business's most important key performance indicators, such as sales figures for your stores, number of scheduled or worked hours and staffing costs.

## Task Management

Easily plan and track recurring tasks - such as taking inventory - for your whole business.

## Integration

Automatically generate payroll files for most payroll systems, ensuring easily generated and accurate salary files - making sure your staff are paid the right amount at the right time.

## Your business, your rules

Whether you're in the head office creating a schedule for your organisation, or an employee clocking in via our app, Quinyx provides a seamless experience across desktop, mobile, and tablet.

Why the world's best retailers choose Quinyx

**“4,000 hours of overtime were saved in Q1 and Q2 2018 through better planning and awareness of store managers, equated to £25,000 in savings.”**

**Jeanette Tax**

*Head of HR Benelux and France, Swarovski*

### **More flexibility for employees.**

40% of retail employees leave their job due to lack of flexibility. Quinyx allows your managers to offer more flexibility to your employees through smart scheduling and shift swapping options - all of which can be managed through the Quinyx app.

### **A better in-store experience.**

Customer experience is everything for the best retailers. Quinyx gives you the tools you need to make sure you always have the right people in the right place at the right time to meet the demand in your stores.

### **Happier employees.**

A happier employee is 20% more efficient. If your floor staff are given the flexibility they crave, they'll be more efficient and deliver a first-class experience to your customers every single time.

### **Better managers.**

Quinyx helps retail store managers save, on average, 50% of time on administration allowing them to spend more time training your employees and working the shop floor.

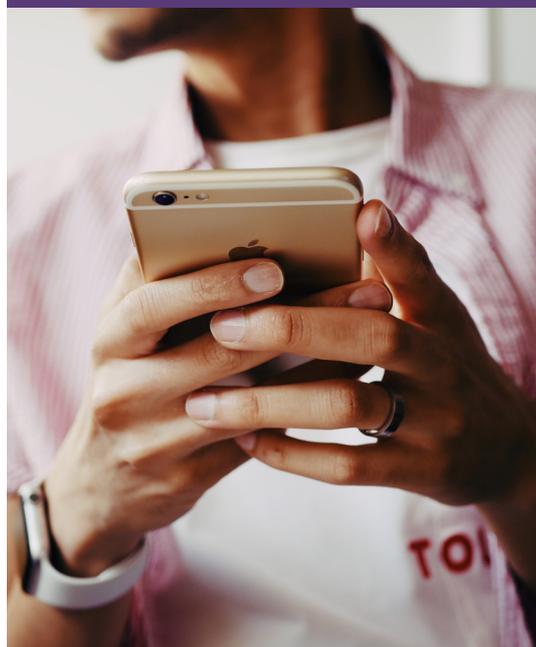

### **Happier business.**

Quinyx is unique as it makes engaging employees and providing them with a strong work/life balance a priority which, in turn, helps decrease employee churn, increase NPS and, subsequently, results in increased sales and that amazing in-store experience that retailers are looking for.

**By implementing Quinyx, we decreased time spent on payroll from 1 – 2 days down to 5 minutes”**
