

Introducing RetailOS

Red Ant's unified in-store platform connects your existing technology with innovative solutions designed to energise the retail experience, with built-in features for virtual consultations.

A powerful suite of apps

Our retail apps are designed to meet all of your business wants and needs, allowing you to reopen confidently and continue to operate safely with both your customers' and store associates' welfare at the heart of what you do, from virtual clienteling and contactless concierge services to flexible fulfilment.

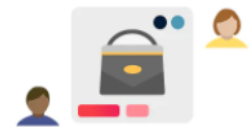

Virtual Consultations

Connect with your customers at home for a personalised virtual experience

Clienteling

Give every customer the VIP treatment, in-store or at home

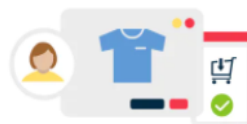

Assisted Sales

Convert more sales with full in-store access to product & customer details

Runner

Speed up order processing and keep social distance on the shop floor

Omnichannel POS

Upgrade your POS to be truly omnichannel and fit for purpose

Employee Engagement

Take care of your colleagues and turn them into ambassadors

Click & Collect

Streamline the end-to-end customer experience with click & collect/BOPAK

Actionable Analytics

Understand & safely manage your business with real-time data & insights

SellSmart Machine Learning

Transform your business with cognitive technology
